STEP 2
ALLIED HEALTH

Dear Clients, Families and External Stakeholders,

I am writing regarding an upcoming change to our business structure. Since 2019, Step 2 Allied Health has operated two separate entities under the same broader company structure;

1. **Entity 1:** Occupational Therapy, Speech Pathology, Counseling, Therapy Assistant, Support Work, SIL, Driving, and all other non Behaviour Support clinical services.
    - ABN: 23 632 166 540

2. **Entity 2:** Behaviour Support services
    - ABN: 80651 166 479

In August 2026, we are very excited to see both entities merge to a single company state. This is an exciting step in our evolution as we continue to provide the highest quality, multidisciplinary support to our clients, and comprehensive career pathways for professionals in South West Victoria.

Entity Status	Company Name	ABN	Target state
Legacy	Step 2 Allied Health	23 632 166 540	To be deregistered
Legacy	Step 2 Behaviour Support	80 651 166 479	To be deregistered
Target	**Step 2 Allied Health (NEW)**	**89 641 182 390**	**Ongoing company**

Over the coming weeks, existing clients and representatives will be required to resign documentation such as privacy and consent forms, new service agreements and in some cases, endorse the new Step 2 Allied Health entity with the NDIS.

Each impacted individual will be provided clear, transparent communication throughout this process, to ensure a seamless transition. Importantly - there will be no change to day to day service provision or active client engagement.

If you have any questions, or would like to discuss anything outlined here further - please reach out to our administration team via admin@step2alliedhealth.com.

Thank you for your ongoing engagement with our great team.

Damian Hoare
